High School of Business™ Principles of Management Course

Principles of Management is a project-based business course that expands student understanding of management. Students acquire an appreciation for aspects of management, such as project management, human resources management, knowledge management, quality management, and risk management. In addition, ethical and legal considerations affecting business activities are stressed, and students develop managerial and supervisory skills through interaction with lower grade-level High School of Business™ students. Decision matrices are employed to aid in management planning.

Recommended: 11th or 12th grade
Credit: .5 (one semester)
Prerequisites: Principles of Business and Business Economics
