

Idaho Futuring Panel 2023

Supply Chain Management & Logistics

Wednesday, August 2, 2023
9:00 a.m. – 3:00 p.m.

(Light breakfast at 8:30 a.m.; Lunch also provided)

Idaho Division of Career Technical Education

Len B. Jordan Building,
650 W. State St., Suite 324, Boise, ID 83702

Calling All Supply Chain Professionals!

Support the Idaho Division of Career Technical Education (IDCTE) in the development of supply chain management (SCM) and logistics curriculum.

During the meeting, you will be guided to:

- Discuss trends impacting employees' needed skills and knowledge
- Review and validate current curriculum standards
- Identify important credentials and emerging occupations

Qualifications:

- Currently employed full time
- 2-3 years of SCM experience or a strong component of your overall work experience

No advance preparation is needed.

The insights you give will be based on your professional work experience.

Education Partners

MBA Research is partnering with the Idaho Division of Career Technical Education (IDCTE) to conduct a Futuring Panel in Boise, Idaho, in August.

This panel of business and industry professionals will ensure that Idaho's educational institutions are teaching the skills and content that matter most to supply chain management & logistics employers now and in the years to come in Idaho.

Who We Are

MBA Research & Curriculum Center is a not-for-profit organization dedicated to researching, developing, and disseminating materials to teachers of business management, marketing, finance, entrepreneurship, and hospitality management.
